REPORTS HUNGARIAN PENICILLIN PRODUCTION;
LISTS CHEMICAL PLANT LOCATIONS

MANUFACTURES PENICILLIN, FINE CHEMICALS -- Budapest, Hírek a Magyar Nepi Demokraciabol, 10 Nov 50

The Chinoín Chemical Works [Újpest or Diosgyor?] has installed a new section in its plant, devoted to the manufacture of penicillin. This valuable drug was imported up to now. The production of the plant already satisfies domestic requirements and production is being raised to such a level that Hungarian penicillin will be available for export.

Almost no fine chemicals were produced in Hungary in the past. No quality control or analysis can be performed without them. Up to the present time, all such materials had to be imported. As part of the Five-Year Plan, a fine chemicals plant is being added to Chinoín Chemical Works. The manufacture of chemicals was begun even before construction was completed and the results obtained up to now mean a considerable exchange savings to the national economy.
